- **Tuesday, April 1, 2025**

Steve Gettle will give a Zoom presentation titled “Caught in Motion: Photographing Action.” More information will follow. I do not have the exact time of this presentation, but it will be about 7 p.m.

This event will also be free to club members but requires **registration**. To register, email Carolyn Todd-Larson at [statecollegephotoclub@gmail.com](mailto:statecollegephotoclub@gmail.com). You will later receive a Zoom link to access the meeting.

*From Steve Gettle's promotional material:*

*Want to learn how to go beyond simply making static portraits of your subjects? Technological advances have now made stop-action photography accessible to virtually every photographer. This all-new program starts with using just your camera, natural light, and auto-focus for subjects on the move, such as birds in flight and running animals. We will discuss special exposure techniques for action, acquiring initial focus-lock, tracking your subject, optimizing your autofocus, and the creative doors opened by adding a simple infrared trigger system and much more! ## PSA Youth Showcase Update

We have decided to postpone our participation in the PSA Youth Showcase competition this year, but we hope to participate again next year. Please get in touch with me if you have any questions.

## Keystone Salon of Photography 2025 Competition Update

Last year's first Keystone Salon of Photography competition was a success and will happen again this year! Fred Doerfler of the Pittsburgh Photo Club led this effort, which was open to multiple PA photo clubs in the eastern and central PA regions.

If you want to think ahead, the 2025 competition will have similar categories to last year's, except the PA travel category will be expanded to include travel outside PA. This year's six categories will be Open Color, Open Monochrome, Altered Reality, Photo Travel, Nature, and Photojournalism.

That's all for now. See you tomorrow,

Jane Liechty, SCPC President 2024-25
